

## JB Meter Tensioner

## For Many Applications

JB Continues Straps or Meter Tensioner is manufactured in the EPDM rubber which has excellent weather resistance. Our EPDM quality has a high tear strength and elasticity that gives our rubber tensioner a long life. This product is packed in 10 foot length in a compact box.

### Properties

JB Continues Straps or Meter Tensioner is designed excellently to provide the user multiple mounting points and serves to clamp even in short lengths.

### Usage

JB Meter Tensioner is universal rubber tensioners, which gives the user almost infinite possibilities for clamping. JB continues strap is used for many applications such as for keeping tools in systematic way like in the garage or workshop as well as in van and truck. Further, it is safe and easy to install as it's free of sharp hooks and clasps that can make injuries and damage.
