

## INDUSTRIAL COMPONENTS

### We offer:

Precision moulded and extruded rubber parts which are custom engineered to meet the functional requirements and tolerances of our customers.

Parts range from NR, EPDM, Nitrile, Nylon, Plastic to Rubber bonded and suit customer specific requirements such as anti-vibration, noise isolation, heat resistance, non-conducting, oil resistance & detergent resistant.

### KEY ADVANTAGES

- We specialize in providing full service from prototype design, sample development to serial production for our OEM customers.
- Management of the supply chain to ensure security of supply for running parts and spare parts for our customers.
- We are the preferred rubber products suppliers to global OEM equipment makers with consistent top supplier ratings.
